ANALYSIS

The applicant is requesting:

1. Final Plat for Palomino Ridge

The applicant is requesting a plat of approximately +/- 63.053 acres affecting existing parcels 510-17-011G, and 510-17-005B, with the splitting of parcel 510-17-011G into two hundred twenty-six (226) new parcels, and twenty-three (23) new Tracts. Parcel 510-17-005B will remain but be converted into a single Tract for the subdivision. The proposed changes reconfigure the existing parcels while maintaining the codified minimum development standards of the Planned Area Development (PAD) zoning district. The plat additionally adheres to the codified standards of the City’s Subdivision Ordinance. Phase 2 of the proposal, affecting parcel 510-17-005B, will be presented at a future date.

Site access and circulation from W. McDavid Road will not be changed and meets requirements. The proposed Final Plat subdivision will have two (2) points of access along McDavid Drive.

CONCLUSION

Staff recommends approval of case SUB21-51, subject to the conditions of approval stated in this staff report:

1. The improvement plans shall be constructed in accordance with plans approved by the City Engineer, State and County agencies, and utility companies.
2. Requested or required amendments to previously approved documents may be reviewed and approved by staff if determined by the City Engineer and Zoning Administrator that the amendment is of a technical and objective nature. However, if the amendment is determined subjective to policy interpretation, amendments require review and approval by the same approving body (or bodies) as the previous approval(s).
3. In accordance with the City’s Subdivision Code, Sec. 17.20.060(E), approval of the final plat is valid for a period of twelve (12) months from the date of City Council approval. If the developer

fails to provide the required material or perform the necessary work that includes the required improvement plan approval as specified in Sec. 17.20.060(E), within the twelve (12) month period, the final plat approval by City Council shall become null and void. Any further action on said plat, after the expiration of the approval, shall require a complete re-submittal of the plat.

4. All infrastructure improvements shall be in accordance with approved and current improvement plans, with a City-issued construction permit and a County-issued dust control permit prior to installation. The City Engineer and utility providers will perform a final inspection and, as applicable, review the final reports, as-built plans, and warranties prior to City-acceptance of infrastructure.
5. Prior to issuance of the any Certificate of Occupancy, the applicant shall submit and secure all required applications, plans supporting documents submittals, approvals and permits and passed inspections from the applicable federal, state, county, and any other agencies as applicable.
