# Housing Plan Goal

- The City has identified a need (other housing options) of approximately 25% of the city's housing inventory to be multi-family.
- City housing inventory of Single-Family Residential units is 70,400 (entitled) with 24,345 units complete (constructed).
- City housing inventory of Multi-Family Residential units is approximately 2,335 (entitled) with 670 units complete (constructed).
- City housing need for Multi-Family Residential making up 25% of its total housing inventory, based on the current completed units count, is 6,253 completed multi-family units.
- The City currently has approximately 2,133 multi-family units in various stages of land use entitlement proceedings (including this application).

# Rezoning Criteria for Approval

In accordance to Zoning Code Sec. 18.175.040, the decision making body shall evaluate the proposed zone change conforms with the following design guidelines criteria:

- The amendment is consistent with the general plan;
- Any change in district boundaries is necessary to achieve the balance of land uses desired by the city, consistent with the general plan, and to increase the inventory of land within a given zoning district; and
- The amendment will promote the growth of the city in an orderly manner and protect the public health, safety, peace, comfort and general welfare.
