East	N/A	N/A	Vacant, State Trust
South	Commercial (C)	Industrial Zone (CI-2)	Agriculture/Farming
West	N/A	N/A	Ak Chin Southern Dunes Golf Club

PROJECT HISTORY

The Moonlight Ridge Planned Area Development (PAD) was created in 2021, under planning case PAD21-06. The final plat for Moonlight Parcel A was approved by the city council on August 1, 2023 (Fee No. 2023-070056). If the council approves, this replat will add fourteen (14) single family lots that were pending LOMR approval.

ANALYSIS

This replat proposal seeks to add fourteen (14) new lots that were pending LOMR approval. Two (2) lots added to Tract A-A, two (2) lots added to Tract A-J, and ten (10) lots added to Tract A-L. Subsequent construction will adhere to the standards governed by the Moonlight Ridge PAD Development standards (PAD21-06).

CONCLUSION

Staff recommend approval of case SUB25-11, subject to the conditions of approval stated in this staff report:

1. The improvement plans shall be constructed in accordance with plans approved by the City Engineer, State and County agencies, and utility companies.
2. Requested or required amendments to previously approved documents may be reviewed and approved by staff if determined by the City Engineer and Zoning Administrator that the amendment is of a technical and objective nature. However, if the amendment is determined subjective to policy interpretation, amendments require review and approval by the same approving body (or bodies) as the previous approval(s).
3. In accordance with the City's Subdivision Code, Sec. 17.20.060(E), approval of the final plat is valid for a period of twelve (12) months from the date of City Council approval. If the developer fails to provide the required material or perform the necessary work that includes the required improvement plan approval as specified in Sec. 17.20.060(E), within the twelve (12) month period, the final plat approval by City Council shall become null and void. Any further action on said plat, after the expiration of the approval, shall require a complete re-submittal of the plat.
4. All infrastructure improvements shall be in accordance with approved and current improvement plans, with a City-issued construction permit and a County-issued dust control permit prior to installation. The City Engineer and utility providers will perform a final inspection and, as applicable, review the final reports, as-built plans, and warranties prior to City-acceptance of infrastructure.
5. Prior to issuance of any Certificate of Occupancy, the applicant shall submit and secure all required applications, plans supporting documents submittals, approvals and permits and passed inspections from the applicable federal, state, county, and any other agencies as applicable.
