The State and the City are collectively referred to as “Parties.”

I. RECITALS

1. The State is empowered by Arizona Revised Statutes § 28-401 to enter into this Agreement and has delegated to the undersigned the authority to execute this Agreement on behalf of the State.
2. The City is empowered by Arizona Revised Statutes § 9-240 to enter into this Agreement and has by resolution, a copy of which is attached hereto and made a part hereof, resolved to enter into this Agreement and has authorized the undersigned to execute this Agreement on behalf of the City.
3. The work proposed under this Agreement, (the “Project”), consists of construction of roadway paving and installing aggregate base course, two applications of chip seal, pavement markings, signing, erosion control and other related work, approximately 4.7 miles, along Porter Rd: Farrell Rd to 1.9 miles south and along Farrell Rd: Hartmann Rd to Maricopa-Casa Grande Hwy. The State will advertise, bid, award and administer the construction of the Project. The plans, estimates and specifications for the Project will be prepared by the City and, as required, submitted to Federal Highway Administration (FHWA) for approval.
4. The interest of the State in this Project is the acquisition of federal funds for the use and benefit of the City and the authorization of such federal funds for the Project pursuant to federal law

and regulations. The State shall be the designated agent for the City for the Project, if the Project is approved by FHWA and funds for the Project are available. The Project will be performed, completed, accepted and paid for in accordance with the requirements of the Project specifications and terms and conditions.

5. The Parties acknowledge that the final Project amount may exceed the initial estimate(s) identified in Exhibit A, and in such case, the City is responsible for, and agrees to pay, any and all actual costs exceeding the initial estimate. If the final bid amount is less than the initial estimate, the difference between the final bid amount and the initial estimate will be de-obligated or otherwise released from the Project. The City acknowledges it remains responsible for, and agrees to pay according to the terms of this Agreement, any and all actual costs exceeding the final bid amount.

THEREFORE, in consideration of the mutual Agreements expressed herein, it is agreed as follows:

II. SCOPE OF WORK

1. The State will:
 - a. Execute this Agreement, and if the Project is approved by FHWA and funds for the Project are available, be the City's designated agent for the Project.
 - b. Execute this Agreement, and prior to performing or authorizing any work, invoice the City for the initial Project Management Design Review (PMDR) costs, estimated at **\$30,000.00**. If actual PMDR costs exceed the estimate during the development of design, notify the City and obtain concurrence prior to continuing with the development of design. Once the Project costs have been finalized, the State will either invoice or reimburse the City for the difference between estimated and actual costs.
 - c. After receipt of the PMDR costs, review design plans, specifications, cost estimates and other such documents required for the construction bidding and construction of the Project, including scoping/design plans and documents required by FHWA to qualify projects for and to receive federal funds; provide design review comments to the City as appropriate.
 - d. After completion of design and prior to bid advertisement, invoice the City for the City's actual PMDR costs, as applicable, and the City's share of the Project construction costs, estimated at **\$124,919.00**. Once the Project costs have been finalized, the State will either invoice or reimburse the City for the difference between estimated and actual costs; de-obligate or otherwise release any remaining federal funds from the scoping/design phase of the Project.
 - e. After receipt of the City's actual PMDR costs, if applicable, and the City's estimated share of the Project construction costs, submit all required documentation to FHWA with the recommendation that the maximum federal funds programmed for construction of this Project be approved. Should costs exceed the maximum federal funds available, it is understood and agreed that the City will be responsible for any overage.

- f. With FHWA authorization, proceed to administer construction, advertise for, receive and open bids, award and enter into a contract with the firm for the construction of the Project. If the bid amounts exceed the construction cost estimate, obtain City concurrence prior to awarding the contract. Once awarded, invoice the City for the difference between estimated and actual costs, if applicable.
 - g. Notify the City of substantial completion and final acceptance of the Project; coordinate with the City and turn over full responsibility of the Project improvements. De-obligate or otherwise release any remaining federal funds from the construction phase of the Project within 90 days of final acceptance.
 - h. Not be obligated to maintain the Project, should the City fail to budget or provide for proper and perpetual maintenance as set forth in this Agreement.
2. The City will:
- a. Designate the State as the City's authorized agent for the Project.
 - b. Within 30 days of receipt of an invoice from the State, pay the initial PMDR costs, estimated at \$30,000.00. Agree to be responsible for actual PMDR costs, if during the development of design, PMDR costs exceed the initial estimate. Be responsible for any difference between the estimated and actual PMDR and design costs of the Project.
 - c. Prepare and provide design plans, specifications, cost estimates and other such documents required for the construction bidding and construction of the Project, including scoping/design plans and documents required by FHWA to qualify projects for and to receive federal funds; incorporate design review comments from the State, as appropriate.
 - d. After completion of design, within 30 days of receipt of an invoice from the State and prior to bid advertisement, pay to the State, any outstanding PMDR costs and the City's share of Project construction costs, estimated at **\$124,919.00**. Once the Project costs have been finalized, the State will either invoice or reimburse the City for the difference between estimated and actual costs.
 - e. Be responsible for all costs incurred in performing and accomplishing the work as set forth under this Agreement, that are not covered by federal funding. Should costs be deemed ineligible or exceed the maximum federal funds available, it is understood and agreed that the City is responsible for these costs; payment for these costs shall be made within 30 days of receipt of an invoice from the State.
 - f. Certify that all necessary rights-of-way have been or will be acquired prior to advertisement for bid and that all obstructions or unauthorized encroachments of any nature, either above or below the surface of the Project area, shall be removed from the proposed right-of-way or will be removed prior to the start of construction, in accordance with The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 as amended; 49 CFR 24.102 Basic Acquisition Policies; 49 CFR 24.4 Assurances, Monitoring and Corrective Action, parts (a) & (b) and ADOT ROW Manual: 8.02 Responsibilities, 8.03 Prime Functions, 9.06

All work by the City Inspector must be invoiced for within 30 days for both payment and federal reporting purposes. The City will invoice the State monthly for reimbursement of the City Inspector's labor and equipment costs. Within 30 days of receipt of the invoice and all back-up documentation, the State shall reimburse the City for approved costs. The City will be notified of invoice approvals by the ADOT Central District.

The State, through the Central District, will evaluate the City Inspector at the end of the Project and report its findings to ADOT Local Public Agency (LPA) section indicating whether the City Inspector is eligible to inspect future City projects.
