RECITALS

WHEREAS, Arizona Revised Statutes (A.R.S.) Sections 11-952, authorizes public agencies to enter into contracts or agreements for services or to jointly exercise any powers common to them, and to enter into agreements with one another for joint or cooperative action.

2. Services.

2.1. Training and Other Activities. The City will provide training as outlined in the Fire Service Training Menu, attached hereto as **Exhibit A**.

2.2. Availability of Training. Nothing in this Agreement creates an obligation or otherwise requires the City to host training, or to provide an opportunity in any particular training class to the Agency.

2.3. Training Records. The City will provide original training records for the Agency's personnel upon the completion of any training being provided, or upon termination of the Agency personnel's attendance in the training program. The City will maintain records of lesson plans, class rosters, and other documentation common to the class as a whole when the law, fire service standards, or best practices require or make reasonable and prudent the preservation of such information.

2.4. Equipment and Assistance with Training.

2.4.1. The City shall specify the equipment and materials ("Required Equipment") that the Agency must provide to its employees, or that the Agency employees must have in order to participate in any particular training program. The Agency's employees must have the required equipment as a condition of participation in the training program.

2.4.2. Upon reasonable request, the Agency will provide the City with instructors for assistance. When the Agency has facilities or equipment (e.g., a burn building, training props, apparatus, etc.) that can facilitate a specific training being conducted by the City, the Agency will allow the City to use such facilities, subject to their availability, when it is determined by both Parties to be in their mutual best interest. Any such contributions by the Agency, to the extent applicable, will be considered in determining the Training Fees.

2.5. Discipline, Academic Requirements, and Skill Performance Standards.

2.5.1. The City reserves the right, in its sole discretion, to determine whether the Agency employees are maintaining the minimum requirements necessary to continue in the training. In the event a student is removed for failure to abide by training or affiliated training location or vendor academic, ethical, or disciplinary standards applicable to all fire service training students, the employing party will remain responsible for full payment of contractual training fees. Removal from training is apart and independent from whether the impacted employee is disciplined or terminated by the employing Agency.

Agency Contract No.: _____

- 2.5.2. Employees of both Parties shall be subject to the same standards for purposes of training and academics. In the event that an Agency employee is suspected of having engaged in misconduct while in training being conducted by the City, the City shall report the suspected misconduct to the Agency as soon as practicable. The employing Agency will be responsible for conducting any appropriate investigation and taking corrective action or discipline.
 - 2.5.3. The City has the sole responsibility and authority to determine issues relating to: (1) the curriculum and content of instruction for training; (2) the training schedule and hours; (3) decisions about whether the Agency's employees should remain in the training; (4) the implementation and execution of policies and procedures applicable to City controlled training and City owned training locations; (5) the facility and location of site specific training; and (6) the assignment and use of any Agency provided instructors, staff, or equipment.
 - 2.5.4. The Parties understand and agree that the City will determine the curriculum for training programs, in part, to satisfy the City's standards, which may include the skill performance standards within the Scottsdale Fire Department's Training Standards. The Agency may request cross-training on the City materials, the presentation of which shall be provided by the Agency's personnel. The Parties further understand and agree that the City will determine the appropriate location necessary to support training programs which, in part, satisfy the City standards. Additional training needs beyond the City's standards, which may require additional time and resources, by way of separate agreements will be the sole responsibility of the requesting Agency.
 - 2.5.5. The City will regularly communicate with the Agency on issues that may affect the ability of an Agency's employee to successfully complete the training program, including, but not limited to academics, physical fitness, discipline, requirements of the Arizona State Fire Marshal and Arizona Department of Health Services. The City will advise the Agency, as soon as possible, when it appears that an Agency employee may be subject to being removed from a City training program.
- 2.6. Agency Responsibilities. Agency agrees to be responsible for ensuring that their employees sent to the City premises or training location pursuant to this Agreement meet the following minimum requirements to receive the training:

- 2.6.5. Agency will ensure that Agency employees have required protective gear, uniforms, or other required equipment for the Training Services.
- 2.6.6. Necessary Third-Party Agreements. Due to the variety of insurance, indemnification, background check requirements etc., where training requires a separate Agreement in order to provide clinical rotations, such as in Paramedic Training, the Agency will be solely responsible for making sure their employees are covered under an agreement with the non-City owned training site location and the Agency.

For Paramedic Training clinical rotations, the City will provide the necessary academic instruction. Additionally, the City will assist and track students with the required record keeping which is reviewed weekly to include patient assessment areas, skills completed, hours worked, student and preceptor evaluations and documentation of all patient contacts. City staff available to the students throughout the clinical training includes the Program Director, Clinical Coordinator, Program Coordinator and any additional EMS staff assigned to the paramedic class. Student identification badges, access to electronic record keeping or paper records for the students to track all of the required hours, skills and assessments to meet CAAHEP, CoAEMSP and AZDHS requirements will be provided by the City.
