**Install Services:** Circul-Air quotes that include installation charges are based on a standard cost model. Local codes, filings, and wage requirements are outside the scope of this quote and are considered "Additional Services".

**Schedule:** The install services will be conducted after a readiness review (distributor personnel may be required to assist) and subsequently scheduled based on product availability and department schedule. Both parties to agree in advance to approve the delivery and installation schedule.

**Local Ordinances:** It is the responsibility of the purchasing distributor to understand local codes and requirements.

**Add-Ons:** Any additional services requested by the client not discussed are not covered by the estimate and will incur additional charges.

**Changes:** Changes to the delivery and performance of any products or services, including quantity, specifications, and scheduling, do not become binding until approved in writing by both parties. Any changes may result in additional or increased charges.
