In the event of such termination, Contractor shall complete any work already begun.

When any of the above reasons exist, the City may without prejudice to any other rights or remedies and after giving the Contractor ten (10) days written notice, terminate this Agreement with the Contractor.

When the City terminates the Agreement for one of the reasons stated above, the Contractor shall not be relieved of liability to the City for damages sustained by the City by virtue of any breach of this Agreement by Contractor and the City may withhold any payments to the Contractor for the purpose of set-off until such time as the exact amount of damages due the City from the Contractor is determined.

7.2 Termination by the City for Convenience. The City may terminate this Agreement without cause by giving Contractor thirty (30) days written notice. Such termination shall not prejudice any other right or remedy the City may have under this Agreement. If this Agreement is terminated without cause, Contractor shall be paid for work performed to the date of receipt of such termination notice.

8. INSURANCE:

8.1 General.

a. Insurer Qualifications. Without limiting any obligations or liabilities of the Contractor, the Contractor shall purchase and maintain, at its own expense, hereinafter stipulated minimum insurance with insurance companies duly licensed by the State of Arizona with an AM Best, Inc. rating of A- or above with policies and forms satisfactory to the City. Failure to maintain insurance as specified herein may result in termination of this Agreement at the City's option.

b. No Representation of Coverage Adequacy. By requiring insurance herein, the City does not represent that coverage and limits will be adequate to protect the Contractor. The City reserves the right to review any and all of the insurance policies and/or endorsements cited in this Agreement but have no obligation to do so. Failure to demand such evidence of full compliance with the insurance requirements set forth in this Agreement or failure to identify any insurance deficiency shall not relieve the Contractor from, nor be construed or deemed a waiver of, its obligation to maintain the required insurance at all times during the performance of this Agreement.

c. Additional Insured. All insurance coverage and self-insured retention or deductible portions, except Workers' Compensation insurance and Professional Liability insurance, if applicable, shall name, to the fullest extent permitted by law for claims arising out of the performance of this Agreement, the City, its agents, representatives, officers, directors, officials and employees as Additional Insured as specified under the respective coverage sections of this Agreement.

d. Coverage Term. All insurance required herein shall be maintained in full force and effect until all work or services required to be performed under the terms of this Agreement are satisfactorily performed, completed and formally accepted by the City, unless specified otherwise in this Agreement.

e. Primary Insurance. The Contractor's insurance shall be primary insurance with respect to performance of this Agreement and in the protection of the City as an Additional Insured.

f. Claims Made. In the event any insurance policies required by this Agreement are written on a "claims made" basis, coverage shall extend, either by keeping coverage in force or purchasing an extended reporting option, for three (3) years past completion and acceptance of the work or services. Such continuing coverage shall be evidenced by submission of annual Certificates of Insurance citing applicable coverage is in force and contains the provisions as required herein for the three-year period.

g. Waiver. All policies, except for Professional Liability, including Workers' Compensation insurance, shall contain a waiver of rights of recovery (subrogation) against the City, its agents, representatives, officials, officers and employees for any claims arising out of the work or services of the Contractor. The Contractor shall arrange to have such subrogation waivers incorporated into each policy via formal written endorsement thereto.

h. Policy Deductibles and/or Self-Insured Retentions. The policies set forth in these requirements may provide coverage that contains deductibles or self-insured retention amounts. Such deductibles or self-insured retention shall not be applicable with respect to the policy limits provided to the City. The Contractor shall be solely responsible for any such deductible or self-insured retention amount.

i. Use of Subcontractors. If any work under this Agreement is subcontracted in any way, the Contractor shall execute a written agreement with the Subcontractor containing the indemnification provisions and insurance requirements (unless waived by City in City's sole discretion) set forth herein protecting the City and the Contractor. The Contractor shall be responsible for executing the agreement with the Subcontractor and obtaining certificates of insurance verifying the insurance requirements.

j. Evidence of Insurance. Prior to commencing any work or services under this Agreement, the Contractor shall furnish the City with certificate(s) of insurance, or formal endorsements as required by this Agreement, issued by Contractor's insurer(s) as evidence that policies are placed with acceptable insurers as specified herein and provide the required coverages, conditions and limits of coverage specified in this Agreement and that such coverage and provisions are in full force and effect. If a certificate of insurance is submitted as verification of coverage, the City shall reasonably rely upon the certificate of insurance as evidence of coverage but such acceptance and reliance shall not waive or alter in any way the insurance requirements or obligations of this Agreement. If any of the above-cited policies expire during the life of this Agreement, it shall be the Contractor responsibility to forward renewal certificates

within ten (10) days after the renewal date containing all the aforementioned insurance provisions. Certificates of insurance shall specifically include the following provisions:

- 2.4 The CONTRACTOR will provide his own yard for parking, maintenance and storage of all equipment.

3. TRAFFIC CONTROL:

- 3.1 Traffic control during the striping or pavement marking application shall be in conformance with the MUTCD, Part VI. Signs warning motorists of "Wet Paint" and "Road Striping Ahead" shall be placed in advance of each job to warn motorists. Placement of signs shall conform to the MUTCD, Part VI. Placement of cones on lines is recommended and may be required on some jobs.
- 3.2 The CONTRACTOR is responsible for traffic control until paint is dry. The CONTRACTOR is responsible for satisfactory removal of pavement marking from motorists' vehicles if the occurrence was at a location that was under the CONTRACTOR'S control. Such paint removal must be done as directed by the COUNTY'S Representative, and at no expense to the motorist or the COUNTY.

SECTION III – TECHNICAL SPECIFICATIONS

4. APPLICATION and TOLERANCES:

4.1 Pavement markings shall be applied when the pavement surface is clean and dry when the weather is not foggy, rainy, or otherwise adverse to the application of paint or other material. Sweeping prior to application will be done by the CONTRACTOR. The CONTRACTOR shall not apply markings until final approval is given by the COUNTY'S Representative. Application of pavement markings shall be done by personnel who are experienced in this work. In all cases, pavement markings shall be placed in accordance with ADOT Standard Specifications and MUTCD.

4.2 Tolerance for Application of Paint and Beads:

4.2.1 The finished line shall be smooth, aesthetically acceptable, and free from undue waviness. The end of the line shall be square and free from splatter, dribble, or trailings.

4.2.2 Center lines and edge lines shall be 4" wide. White channelizing lines for left turn bays shall be 8" wide. Line width variation more than 1/4" shall require reduction in pay or rework, if necessary.

4.2.3 Painted lines shall be installed at 16 mils wet film thickness or at a minimum rate of 300 lineal feet per gallon for 4" lines. The inspector shall perform spot checks for wet mil thickness compliance and require inspection of quantities of materials when desired. Rework will be required for striping applied below these standards.

4.2.4 The space or gap between double yellow lines shall be 4" clear. A reduction in pay or rework will be required for a gap less than 3.75" or more than 4.25".

4.2.5 Reflective glass beads shall be applied on the wet paint at a minimum rate of six pounds to each gallon of paint. All painted lines are to receive glass beads at this rate. Any line discovered to have been applied without glass beads shall be re-stripped by the CONTRACTOR within 24 hours.

4.2.6 Any error in striping pattern deemed by the COUNTY'S Representative to be the responsibility of the CONTRACTOR shall be corrected by the CONTRACTOR, at the CONTRACTOR'S expense, using approved methods.

4.3 Tolerances for the Installation of Raised Pavement Markers:

4.3.1 Installation of raised pavement markers may be required on various projects. The CONTRACTOR shall furnish materials, equipment and labor needed for the installation. All raised pavement markers will be installed per ADOT Standard Specifications. Standard Crafcoc adhesive or equivalent is required. Installation shall be on a clean, dry surface. Markers installed not in conformance with ADOT specifications shall be removed and reinstalled at the CONTRACTOR'S expense. Damaged markers due to negligence will be replaced at the CONTRACTOR'S expense.

SECTION III – TECHNICAL SPECIFICATIONS

4. APPLICATION and TOLERANCES (cont'd):

4.4 Tolerances for Striping Obliteration:

4.4.1 Striping requiring obliteration shall be removed using approved methods with as little pavement damage as possible. The use of black paint is not permitted. CONTRACTOR shall collect all debris from the obliteration process and dispose of the debris.

4.5 Labor:

4.5.1 The CONTRACTOR shall provide a crew (2 persons minimum, 3 persons typical), as requested by the COUNTY, to perform physical layout on roads where striping has been obliterated or new striping to be installed, or other related work. The labor charge shall be per crew member and shall include transportation to and from the job site. A COUNTY inspector may direct the activities of the crew. All labor rates begin when the crew arrives at the site and ends when the crew leaves the job site.

4.6 Tolerances for the Installation of Preformed Plastic:

4.6.1 Rolled or cut preformed plastic symbols, legends, and appropriate adhesive will be required for installation at specific locations by the CONTRACTOR. The materials required may be supplied by the COUNTY for various locations. All personnel performing this work shall be experienced with the installation of this material. Specific drawings outlining the work will be supplied by the COUNTY. The installation is to be in conformance with manufacturer's guidelines. Damaged material due to CONTRACTOR'S negligence will be replaced at the CONTRACTOR'S expense.

5. METHOD of MEASUREMENT and PAYMENT:

5.1 Pavement marking paint shall be measured by the linear foot along the center of the stripe. Skips in dashed lines will not be included in the measurement. Length of pavement markings will be based on 4" to 6" wide stripes, 8" wide stripes will be considered two 4" wide stripes. Payment will be made at the contract price per linear foot of 4" wide stripe for the total length of painted lines applied to the nearest foot. A deduction of payment will be made for pavement marking paint which is determined by the COUNTY to be less than 4" wide. Payment for non-conforming work will be held until such time as the work is brought into conformance and accepted by the COUNTY'S Representative.

5.2 The CONTRACTOR shall report daily to the COUNTY'S Representative the total number of lineal feet of markings applied and the location of the completed work. Upon notification, the COUNTY'S Representative will conduct a final inspection. Work found to be in conformance with the contract shall be accepted and scheduled for payment. Work not in conformance shall be corrected by the CONTRACTOR.

SECTION III – TECHNICAL SPECIFICATIONS

5. METHOD of MEASUREMENT and PAYMENT (cont'd):

- 5.3 BIDDER shall guarantee that workmanship and work performed pursuant to this agreement comply with the specifications herein and conform with the generally accepted procedures, practices and methods that are appropriate for the services provided, as well as all applicable Federal, State and COUNTY laws and regulations. Any defective workmanship or materials discovered shall be corrected at no expense, and to the satisfaction of the COUNTY.
- 5.4 Raised pavement markers shall be measured on a unit installed basis. Payment will be made at the contract unit price per each unit installed.
- 5.5 Installation of Preformed Plastic symbols, legends and adhesive shall be measured on a unit supplied and installed basis (CONTRACTOR supplying materials), and on a unit installed only basis (COUNTY supplying materials).
- 5.6 Striping obliteration shall be on a 4" line obliteration basis similar to the installation of pavement marking paint. Payment will be made at the contract unit price per linear foot of 4" wide stripe for the total length of obliterated lines.
- 5.7 Labor charges for layout shall be measured on an hourly rate per crew member basis. Payment will be made at the contract price per hour per crew member.
- 5.8 Mobilization charges for work requiring urgent attention shall be measured per occurrence, and shall require prior approval by the Public Works Director. Payment will be made at the contract price per each occurrence. All mobilization for work other than urgent response will be considered incidental and shall be considered as included in the unit price of contract pay items.
- 5.9 Special projects will be paid at the agreed upon pricing.
- 5.10 The CONTRACTOR shall provide invoices to the COUNTY every two weeks, including two (2) copies of each approved work report and in a format specified by the COUNTY'S Representative. Payment will be made only after completion and acceptance of the work performed and receipt of supporting invoices.

6. WORK SCHEDULE:

- 6.1 The COUNTY is requesting bids for a Pavement Marking contract for the 2015-2016 calendar years (January 1, 2015 through December 31, 2016). Except as otherwise approved in writing by the Public Works Director, the work shall be done primarily from the months of July through October and April through June, during daylight hours, Monday through Thursday.
- 6.2 Prior to commencing any work, the CONTRACTOR shall receive written or verbal notification to proceed from the Director, Deputy Director and/or the Traffic Control Supervisor for the COUNTY.
- 6.3 The CONTRACTOR shall avoid pavement marking operations at specific locations during "rush hour" traffic, unless prior approval is received from the Public Works Director. These locations and hours of concern will be identified by the COUNTY.

SECTION III – TECHNICAL SPECIFICATIONS

6. WORK SCHEDULE (cont'd):

- 6.4 The COUNTY will provide the CONTRACTOR with the locations or areas of the COUNTY in which pavement marking shall be accomplished. The CONTRACTOR shall submit a work schedule, for approval, of proposed roads in which pavement marking is to be done, based upon the COUNTY'S identified locations or areas. The CONTRACTOR shall complete all work on the submitted work schedule. In some instances, projects may require urgent attention and completion within 24 hours. This work would be required to be accomplished in addition to the approved work schedule. For those projects ONLY, the CONTRACTOR may charge a mobilization charge, if the CONTRACTOR is not already on-site.

7. ESTIMATED QUANTITIES:

Estimated quantities provided in the bid documents are for bidding purposes only. Payment will be based on actual materials used and services provided.
