Project Narrative:

Pounders Engineering PLLC is seeking a combination rezone and minor General Plan Amendment to facilitate the development of a PAD light-density residential community of a currently vacant series of parcels. The current zoning is GR (General Rural) and its current land use is MU (Mixed Use).

We would like to rezone this as a PAD in order to offer more flexible design parameters and to facilitate and promote creatively designed developments that are open to horse and small-scale domestic farm animal ownership, larger multi-generational living situations, and high-end single-family homes with larger ranch style lots. Stricter building development parameters like larger side setbacks would encourage homes to be built farther away from one another and prevent house cramping, while allowing for taller homes would allow developments less restriction on verticality. By requiring more driveway and garage parking, we plan on alleviating curbside parking to a minimum. These are some things we wish to alter in order to enhance the living situation for future residents as well as give the community a unique design aesthetic.

With the growing number of residents in the City of Maricopa, it is favorable to further develop the area with more residential options. Currently the site is surrounded by tract residential communities on the east and west, churches, schools, and parks to the south, and many occupied and vacant residential lots to the north. This community would find itself perfectly situated in a part of the city that is geared towards suburban living and recreation, as well as offer the potential to further develop an area that has the potential med-density residential and mixed use, walkable corridor in the future.

The project consists of building a 20.2-acre PAD community of (26) minimum 1/2-acre residential lots. Also included is a community park and greenbelts for recreation. In order to construct a gated community, we have been encouraged to conform to the General Plan Land Use Map by modifying the land use designation of the site to LDR – Low Density Residential. Access to this community will be off Gunsmoke Road and emergency access off Whisker Rd.

We believe that the creation of a unique gated community here is in compliance with future development of the area and will be a beneficial addition to the neighborhood, providing an upscale gated living experience in the heart of a family friendly residential neighborhood. By allowing us to zone this as a PAD, it would promote variation in building design with more distinct character and stricter design parameters.

Meeting Notes:

Meeting began at 6PM with David Pounders, Tyler LaRue, and Dayv Morgan (attending remotely via teleconference) leading the discussion.

Questions discussed:

Q: What developments will be done along Whisker Rd?

A: Whisker Rd will be blocked for vehicular access where the development will start at the south property line of 19141 N Whisker Rd. Only Fire Dept access will be available into the western side of the development.

Q: Will there be any residential traffic into the development from Whisker Rd?

A: No, only Fire Dept access will be available into the western side of the development. All traffic into the development will be via Gunsmoke.

Q: Will Gunsmoke be re-paved?

A: The development will be responsible for the half street improvements and street lights along our project frontage.

Q: What will be the lot size?

A: Generally ½-acre.

Q: Will two story houses be allowed?

A: Yes.

Q: How close will the 2-story houses be to the Glenwilde development?

A: No closer than 130 feet considering all of the setbacks.

Q: There was general concern on 2 story houses being able to look into the back yard of homes in the Glenwilde development. (WARREN THOMAS W & DEBRA D CO-TRS, THOMAS ANTOINETTE F HARMON & LEE O)

A: We explained that at 130 feet away it would be the equivalent of having a 2 story home 6 houses away. That response seemed to be favorably received.

Q: Will livestock be allowed?

A: Yes, chickens and goats are not restricted. Horses and cows can only be allowed on acres larger than 1-acre.

Q: Septic or sewer?

A: The community will be connected to municipal sewer.

Q: Will Santi Rd be a part of this development?

A: Santi Rd will be abandoned at Gunsmoke.

Q: Will there be a developer?

A: No, the lots will be sold individually and may have different builders. All home will be custom.

Q: How much will these lots cost?

A: Lots may go for around \$250,000.

Q: How will stormwater be managed?

A: The 100-year storm will be retained within the development.

Q: More concern was voiced on the potential presence of chickens (JEWETT JACQUE & WILLIAM R)?

A: Chickens are not restricted here due to size and distance of the lots. We reminded them that this will be a high end development and any livestock would be properly managed. Also livestock is currently allowed in the lots.
