ANALYSIS

The City of Maricopa is requesting to rezone the subject property to foster higher density residential development within the City Center area as part of the General Plan's Village Center concept for City Center. The Village Center concept seeks to provide opportunities for higher intensity urban development characterized by local commercial, office, entertainment, recreation, public, and residential uses located within proximity of one another. The concept seeks to create regionalized destination nodes in various areas of the City that will accommodate the needs of residents surrounding the node areas. This proposal seeks to accommodate the residential portion of this concept for the City Center area in addition to helping satisfy the city's overall need for additional multi-family housing opportunities. Refer to Exhibit A for additional information.

CITIZEN PARTICIPATION:

Prior to recommending approval of the proposal, the applicant submitted a public participation plan to demonstrate the materials used to inform surrounding property owners of the proposed Minor General Plan Amendment and Rezoning, as required per the city's Zoning Code. The Citizen Participation Plan included a neighborhood meeting, notification letters sent to all property owners within **600 feet** of the subject area, public notice signs within the subject area, and legal notices in the local newspaper circulator. A timeline of the participation event is shown below (refer to Exhibit E for Citizen Participation Report).

- May 9, 2022 - Notification letters sent
- May 10, 2022 - Legal notice published (newspaper)
- May 10, 2022 - Sign posted
- May 25, 2022 - Neighborhood Meeting held

PUBLIC COMMENT:

As of the writing of this report, Staff has not receive any public comment on the proposal.

GPA22-07 MINOR GENERAL PLAN AMENDMENT FINDINGS:

As required by the General Plan, the following goals and objectives are of consideration:

Goal B1.1.2: Encourage certain areas of the City to rezone to mixed-use and higher density housing consistent with redevelopment plans, General Plan land uses, and transit corridor related goals and policies.

Staff Analysis: The proposed rezone to a higher density residential district is consistent with the future of this identified Village Center area. The high-density residential designation will compliment the proposed Village Center by providing the needed residential density which will, in turn, facilitate bringing commercial/retail to the immediate area.

Goal B1.4: Minimize conflicts between land uses.

Staff Analysis: A transition between Public/Institution and Medium Density Residential with higher density residential uses is consistent with the future of this identified Growth Area. The high-density residential designation will allow for additional multi-family dwelling units that the City Housing Plan has identified as a need for a more diverse housing stock in addition to the Single-Family Residential currently provided west of the site.

Goal B2.1.5: Encourage certain areas of the City to rezone to mixed-use to permit higher density housing consistent with Master Plans, Strategic Plan, and the Village Center planning concept.

Staff Analysis: The proposed rezoning of the site allows for a higher density housing product consistent with the Village Center designation of the City's General Plan. Although the rezone is for high density residential and not mixed-use, the rezone, in combination with other City initiated rezones in the area provides for a mix of uses to be developed with a localized proximity for the Village Center area.

Goal B2.2: Assure the development of a diverse housing stock in both dwelling type and density.

Staff Analysis: Housing diversity availability is improved in both the provision of varying dwelling types/sizes and density that will be associated with the proposal. The City Housing Plan has also identified a need for more diverse housing stock to be utilized by the citizens of Maricopa. The proposed General Plan Land Use Map amendment assists by providing appropriately zoned land for future development to meet these goals.

Housing Element: A Housing Needs Assessment study is necessary to clearly define areas of need and implementation plan to expand housing options in Maricopa.

Staff Update/Analysis: The Housing Needs Assessment and Housing Plan was completed in July 2018 and noted that the need for rental housing was in high demand. At that time, more than 99% of the housing stock consisted of single-family, detached homes (p. 11). This was comparatively over-represented in comparison to the Phoenix MSA where only 65% of housing stock consisted of single-family, detached homes (p. 12). To accommodate the next 10 years of growth, approximately 22,000 new buyers and renters will not be interested in single-family homes (p. 16). Currently, approximately 2,135 multi-family housing units have been entitled in the city of the approximate goal of 6,253 units. Additionally, the benefits of higher density housing adjacent to compatible land uses such as the future park land, commercial and public use supports this proposal.

ZON22-02 ZONING MAP AMENDMENT REQUIRED FINDINGS:

As required by Sec. 509.14 of the City's Zoning Code, the Planning & Zoning Commission shall make the following findings in their recommendation to the City Council:

1. The amendment is consistent with the General Plan;

Staff Analysis: *The proposed zone change to RH adheres to the General Plan's future land use designation, pending approval of the High Density Residential designation.*

2. Any change in District boundaries is necessary to achieve the balance of land uses desired by the City, consistent with the General Plan, and to increase the inventory of land within a given Zoning District; and

Staff Analysis: *The zone change amendment will allow the City to continue its development plan for a more diverse residential housing stock in support of the housing plan's goal to increase the number and type of housing options within the City.*

3. The amendment will promote the growth of the City in an orderly manner and protect the public health, safety, peace, comfort and general welfare.

Staff Analysis: *The zone change will not impact the health, safety and general welfare of the area and will promote growth in an orderly manner.*

CONCLUSION:

Staff recommends **approval** of **cases GPA22-07 and ZON22-02 City Center Multi-Family Rezoning**, subject to the conditions of approval stated in this staff report, and as amended by the Planning and Zoning Commission.

1. The city shall process a minor land division of the rezoned area within 12 months of City Council approval or before any new development application.
2. Prior to the City Council approval of the ZON22-02, the applicant shall submit to the city a signed waiver pursuant to Proposition 207 as applicable.

MEMO

Project Narrative

May 9, 2022

Minor General Plan Amendment, City Center

The City of Maricopa requests to amend a portion of the City Center area (approx. 16.78 ac.) from existing Public Institution (P) to High-Density Residential (H). This proposal will allow the city to work with a developer to provide housing to the City Center and drive opportunities for high density residential development within the area.

Multi-Family Rezone, City Center

The City of Maricopa requests to amend a portion of the City Center area (approx. 16.78 ac.) from existing Transitional (TR) zoning to High-Density Residential (HR). This proposal will allow the city to work with a developer to provide housing to the City Center and drive opportunities for retail and office within the area.

The subject area is generally located southeast from the southeast corner of White and Parker Rd. and Lococo St.

City Center Multi-Family General Plan Amendment and Rezone GPA22-07/ZON22-02:

The City of Maricopa seeks to amend the Land Use Designation set in the Maricopa General Plan for a portion of parcel 502-03-012M. Parcel 502-03-012M currently has a designation of Public/Institutional (P). The existing land use designation does not permit higher density residential development as noted in the General Plan Village Center concept for the City Center area. Amending the General Plan to a High Density Residential (H) designation will allow opportunity for meeting the goals of the Village Center concept by providing the opportunity for high density residential development.

The City of Maricopa seeks to rezone a portion of parcel 502-03-012M. Parcel 502-03-012M currently has a designation of Transitional (TR) zoning. The existing zoning does not permit higher density residential development as noted in the General Plan Village Center concept for the City Center area. Rezoning to High Density Residential (HR) will allow opportunity for meeting the goals of the Village Center concept by providing the opportunity for high density residential development.

Surrounding Area:

Refer to Figure 1 for an aerial view of the subject property and the surrounding area.

Parcel 502-03-012M is bounded to the north by W Honeycutt Rd., to the west by N White and Parker Rd., to the south by W Bowlin Rd., and to the east by the N High Lonesome Dr. alignment. The site is currently vacant and actively engaged in agricultural use.

To the north of the site, between the site and W Honeycutt Rd., the area is vacant and actively engaged in agricultural use.

To the west of the site is the Desert Passage single-family residential subdivision and the subdivision's neighborhood park.

To the south of the site, south of W Bowlin Rd., the area is vacant and actively engaged in agricultural use.

To the east of the site, the area is vacant and actively engaged in agricultural use. The proposed Eagle Shadow subdivision is planned for this area.

Existing conditions and proposed change:

- The City proposes to rezone a 16.78 ac. portion of parcel 502-03-012M, directly north of City Hall to High Density Residential. As noted, the subject area is currently vacant and under active agricultural uses.
