South	Single Family Residence (CR-3 PAD)	Vacant Land	South
East	Single Family Residences (CR-3 PAD)	Santa Rosa Springs	East
West	Vacant Pinal County Land	Rural Farming	West

SUBJECT SITE

ANALYSIS

CVL Consultants on behalf of Pulte Homes, is requesting approval of a Master Plat, subdividing 132 acres of land into seven (7) parcels of land and dedicates all rights-of-ways, tracts, and easements for the future construction of a 680 residential lot subdivision known as El Rancho Santa Rosa. The proposed density for the development is 3.50 units per acre. This project was originally zoned Master Plan community PAD in Pinal County in June of 2001. Formerly known as Dunn Ranch, the Master Planned Community PAD was amended (PAD21-12) in December 2021, carving out 200 gross acres of land for development of the El Rancho Santa Rosa single-family residential subdivision.

Access to the development will be provided via the arterial to the south along the N. Smith Road alignment. To the east, streets within the project will connect to roadways developed in the Santa Rosa Springs development, including West Iron Point Road. The development will also include a “low water” vehicular crossing of the Santa Rosa Wash providing additional connectivity within the development. The development will provide a mix of 45’, 50’, and 55’ wide lots that conform to the approved PAD development standards. The subdivision design will include neighborhood streets, neighborhood parks, and trail connectivity.

The submittal of the final plat includes the plat map of the parcel, pavement plans, grading plans, drainage plans, and landscaping plans. If granted approval of the final plat, the applicant will be responsible for obtaining required signatures and approval from all applicable agencies that includes but not limited to local utilities, state agencies and the City Engineer, as prescribed in the City’s Subdivision Code.

In reviewing the preliminary plat request, the following items were reviewed to assure adequacy with the City’s development regulations for residential subdivisions:

1. Lot size, dimensions and setbacks:

The proposed lot size and dimensions meet minimum requirement as set forth in the approved PAD, case # PAD21-12.

2. Wall Boundary Design:

Theme wall, view fence and standard wall designs are proposed. Wall design and features meet minimum design requirements set forth in the City’s Subdivision Code, Refer to Exhibit C.

3. Pedestrian Connectivity: The project proposes a well-connected pathway system through the subdivision that will tie into the urban trail system planned per the city’s Planning Maricopa General Plan. Satisfying the connectivity requirements as set forth in the City’s Subdivision Code. Refer to Exhibit C, Landscape Plan.

4. Residential Design Guidelines:

The Santa Rosa PAD does not contain specific design guidelines for future residential development. Therefore, the developer will be required to obtain the approval of Residential Design Review applications, prior to building plan submittal, ensuring that future development of the community meets the prevailing standards contained in the City’s Single-family Residential Design Guidelines.

5. Conceptual Landscaping:

The landscaping currently proposed exceeds the minimum required of 20% satisfying minimum requirements set forth within the City’s Subdivision Code. Refer to Exhibit C, Landscape Plan.

6. Preliminary Drainage Report:

The Engineering Division has reviewed the preliminary report and is satisfied with the initial methods of retaining and maintaining drainage. Final drainage report and plans will be reviewed and approved as part of the next development step, final plat application.

7. Road Design:

Roadway design proposed in the preliminary plat (see Exhibit B) adheres to, or advances the intent of, the City’s Roadway Standards as specified in the City’s Subdivision Ordinance.

8. Final Traffic Report:

The Engineering Division has reviewed the Traffic Impact Analysis and found it acceptable to all operational and improvements necessary to provide an acceptable level of service (LOS), per the City’s Subdivision Code.

CONCLUSION

Staff finds the submittal items of SUB22-13, Rancho Santa Rosa Master Plat to be substantially compliant with the City of Maricopa Subdivision Code, Zoning Code, and other requirements set forth within the City Code.

Staff recommends **Approval of SUB22-13 Rancho Santa Rosa Master Plat** subject to the following conditions:

1. The improvement plans shall be constructed in accordance with plans approved by the City Engineer, State agencies and utility companies.
2. Changes/amendments not included with this application request and or addressed during the City's review shall require separate review and approval by staff and if deemed necessary, review and approval by the same approving body for this application as determined by the City Engineer and Zoning Administrator.
3. In accordance to the City's Subdivision Code approval of the final plat is valid for a period of twelve (12) months from the date of City Council approval. If the developer fails to provide the required material or perform the necessary work that includes the required improvement plan approval within the twelve (12) month period, the final plat approval by City Council shall become null and void. Any further action on said plat, after the expiration of the approval, shall require a complete re-submittal of the plat.
4. Human remains and artifacts have been found in the Maricopa area. "Public law 101-601, Native American Graves Protection and Repatriation Act" and "Public law 41-865 disturbing human remains or funerary objects; rules; violation; classification; definitions", A person can be guilty of a class 5 felony if he/she intentionally possess, sells or transfers any human remains or funerary objects that are excavated or removed. In the event that human remains and/or artifacts are discovered during construction, Ak-Chin has requested that the developers stop immediately and contact the Ak-Chin Cultural Resources Office before any further construction continues.
5. After recordation of the plat and Pinal County has assigned an assessor parcel number, the applicant shall be responsible of applying for an address request for all single-family residential lots.
6. Prior to recordation of the final the applicant shall record the proposed CC&R's and the recording number shall be noted within the approval final plat.
7. Public disclosure of potential noise impacts – constructive knowledge of potential railroads/agricultural/industrial impacts shall be made to future purchasers, mortgagees, renters, occupier and users of the property.
8. Prior to issuance of any building permits for model homes/sales office/buildings, the Developer/applicant shall provide evidence that the above disclosures has been included and disseminated to the best of their ability as notes on the final plat, or as a separated recorded document.
9. Prior to the recordation of the final plat, the Developer shall address any and all remaining Planning and Engineering issues.
10. Prior to building permitting for any single-family homes, a Design Review application shall be submitted for the review and approval of the proposed housing products.
11. Housing products shall be designed in accordance to current City of Maricopa standards and/or subsequent standards at the time of submittal.
