Jacobs Engineering Group provides stamped engineering services for final plan review approvals. This contract is to provide plan review services while the City is completing recruitments for existing vacancies; this is needed for the City's continuity of review and approval services for public capital improvement projects as well as private projects. The extension to the existing contract will allow Jacobs Engineering Group to provide vital assistance and continue ensuring acceptable turnaround times are met.

This item will be presented by William P. Fay, Public Works Director.
