Date	Ver.	Action By	Action	Result
1/17/2017	1	City Council Regular Meeting	Approved	Pass

The Mayor and City Council shall discuss and possibly take action to approve the Assignments and Bills of Sale with Global Water Resources for the water and sewer infrastructure installed for the Copper Sky Police Substation and the Public Works/Fleet/Fire Maintenance Facility. Discussion and Action.

Global Water Resources (GWR) and the City currently have existing Line Extension Agreements (LXAs) in place whereby GWR shall provide the water and sewer service for the Copper Sky Police Substation and the Public Works/Fleet/Fire Maintenance Facility. In those LXAs, the City agreed to design and install the water and sewer infrastructure, and also agreed to transfer ownership of the infrastructure to GWR via a Bill of Sale after completion of construction. The City has completed the construction of these projects and is ready to transfer ownership of the water and sewer infrastructure to GWR.

This item will be presented by Public Works Director/City Engineer William P. Fay.

Staff recommends the Mayor and City Council approve the Assignments and Bills of Sale with Global Water Resources for the water and sewer infrastructure installed for the Copper Sky Police Substation and the Public Works/Fleet/Fire Maintenance Facility.
