The Mayor and City Council shall discuss and take action on approval of a Recycled Water User Agreement between the City of Maricopa and the Global Water - Palo Verde Utilities Company, Inc. for the use of recycled water for the lake at Copper Sky. Discussion and Action.

The City desires to meet the State of Arizona's compliance for the conservation of limited water sources. The City wishes to use recycled water supplied by Global Water for the lake at Copper Sky in an effort to conserve potable water. Per the agreement, Global Water will provide the delivery of recycled water to the City for non-potable use at the lake at Copper Sky; the City will provide proper monitoring of water usage after delivery, including any and all required reporting, as well as provide proper signage to the public stating that the water is recycled and not to be consumed.

Staff recommends that the Mayor and City Council approve the Recycled Water User Agreement between the City of Maricopa and the Global Water - Palo Verde Utilities Company, Inc.
